

Meet Cindy Poteete

I have been a school nurse since 1987. I work in Wichita Public Schools as a Campus Support Nurse. My job entails mentoring new nurses, organizing our in-services, providing orientation for substitute school nurses, as well as being available to assist the 87 nurses in our school district. As well as being a member of Kansas School Nurse Organization and National Association of School Nurses, I am on Kansas Diabetes Advisory Council, Wichita School Nurses Association, and teach the HANDS (Helping to Administer to the Needs of Students with Diabetes in the School Setting).
