

## Meet Cindi Tedder

I have been a School Nurse in the state of Kansas since 1996. I started my school nurse career as a campus nurse at Southwestern College in Winfield. I moved to Lawrence in 1997 and worked as a school nurse in the Lawrence district at two elementary schools. In 2000 we moved to Olathe and I have been with the Olathe School District ever since that time. I worked in the Title 1 elementary school setting until 2008 and then moved to Harmony Early Childhood Center. Currently I work with area preschool special education students.

Prior to working as a school nurse I had the opportunity to work in all areas of nursing as a rural nurse. My favorite areas of rural nursing were the emergency room and obstetrics and gynecology.

I have been representing KSNO in various areas over the past ten years. I have been the Legislative Chair and Co-Chair until summer of 2008. I was the Vice President concurrently with the Legislative Chair during summer 2007-2008.
