School Nurse Resources for Diabetes

This document was created to support the role of the school nurse in diabetes management in schools. It was written through a collaboration of school/public health nurses from school districts across Kansas (School Nurse Advisory Committee) and child health partners from local health departments, Kansas Department of Health & Environment’s Bureau of Health Promotion and Children and Families Section.

The following Web sites provide diabetes information and support for Kansas.

Kansas Diabetes Action Council  http://kansasdiabetesactioncouncil.org/

Children’s Mercy Hospital, Department of Endocrinology and Diabetes  http://www.childrensmercy.org/Clinics_and_Services/Clinics_and_Departments/Endocrinology_and_Diabetes/

The following Web sites provide diabetes information and support for school nurses.

1. NASN
      i. Provides resources, publications and web links

2. American Diabetes Association
      i. NDEP's Helping the Student with Diabetes Succeed: A Guide for School Personnel
      ii. Diabetes Care Tasks At School: What Key Personnel Need To
      iii. Tips to Help Teachers Keep Kids with Diabetes Safe at School
      iv. Helping Students with Diabetes Thrive in School
      v. Also has many links to other information

3. WISHeS-Wisconsin Improving School Health Services Project
      i. Glucose Monitoring
      ii. Ketone Testing

4. National Diabetes Education Program
      i. Diabetes Resources for Schools and Youth
      ii. Diabetes Resources for Schools
      iii. Diabetes Education for Children and Adolescents
