

22nd Annual Statewide Summer Conference For Kansas School Nurse

“Power Up!”

Three hundred and thirty-two school nurses attended the recently completed Kansas School Nurse Conference in Wichita. They were joined by forty-nine nurses who attended the New Nurse Session. Those attending the conference attended break-out sessions that included topics pertinent to empowering students and families to maintain and improve their health and safety. There were also sessions offered that focused on fundamental practice topics in school nursing.

The conference provided an opportunity for school nurses across the State of Kansas to refuel and recharge! Hopefully those attending left the conference invigorated and ready to “Power Up” for the 2011-12 school year.
